Additional information			User guidance		
➤ Arch shaped foam supports in the lid for weight balance and rear console protection ➤ Optional upgrades include powder coating and over latches that can be used with TSA padlocks.			➤ The retractable handle is for motion purposes only and should not be used to lift the case. It is recommended that the user does not spin the flight case whilst the handle is in use it can cause it to break.		

All our flight cases are made with aircraft grade aluminium and are fully recyclable.
